EVALUATION QUESTIONNAIRE

Original or research articles

Manuscript		Deadline:
Title		

	Fully	Quite a lot	Little	Not at all	See observation
Is the paper's topic within the scope of the journal?					
Does the paper provide something novel?					
Are the presentation, organization and length of the paper correct?					
Does the title clearly and sufficiently reflect the content?					
Is the abstract appropriately structured?					
Does the abstract clearly and sufficiently reflect the content?					
Does the introduction clarify the state of the issue?					
Are the keywords included in the MeSH?					
Are the aims clearly defined?					
Are the aims reasonable and appropriate?					
Are the methods suitable to attain the aims?					
Are the methods correctly reported?					
Is the study design acceptable and ethical?					
Are the results correctly reported?					
Are the tables and figures appropriate and necessary?					
Do the tables and figures suitably explain their content?					
Is the statistical analysis correct?					
Is the discussion acceptable?					
Can the conclusions be drawn from the results?					
Do the conclusions respond to the aims?					
Is there compliance with the journal's bibliographical citation rules?					
Is the bibliography appropriate?					
Are the references sufficiently up to date?					

<i>This manuscript can be published:</i>		<i>The manuscript's scientific validity is:</i>		<i>Its relevance for pharmaceutical treatment is:</i>	
a) without review		a) significant		a) significant	
b) with minor changes		b) quite significant		b) quite significant	
c) with major changes		c) average		c) average	
d) should be rejected		d) scarce		d) scarce

EVALUATION QUESTIONNAIRE

Clinical case reports

Manuscript		Deadline:
Title		

	Totalmente	Bastante	Poco	Nada	Ver coment.
Is the paper's topic within the scope of the journal?					
Does the case study reported occur in the field of community pharmacy?					
Is the case study of sufficient interest? (Rare situation or intervention, special complexity, unexpected result, etc.)					
Does the case study provide something novel?					
Does the title clearly and sufficiently reflect the content?					
Is the abstract appropriately structured?					
Does the abstract clearly and sufficiently reflect the content?					
Are the presentation, organization and length of the paper correct?					
Does the case presentation/Background explain the initial situation well?					
Are the study and evaluation correct?					
Is the procedure correct and in accordance with the law?					
Is the follow-up sufficiently documented?					
Is the result sufficiently documented?					
Are the final observation/conclusions coherent with the case study's development?					
Are the keywords included in the MeSH?					
Are the tables and figures appropriate and necessary?					
Do the tables and figures suitably explain their content?					
Is there compliance with the journal's bibliographical citation rules?					
Is the bibliography appropriate?					
Are the references sufficiently up to date?
