TYPES OF ARTICLES

Original or research articles

The main and most important section of the journal is devoted to original research papers in the field of community pharmacy. The structure shall be as follows: abstract, keywords, text (introduction, materials and methods, results, and discussion), acknowledgments, and bibliography.

Maximum length:
- Text wordcount: 3,500
- Abstract wordcount: 250
- Tables/Images: 10
- References: 30

Reviews

Reviews are about any subject of relevance or interest on professional activity in the field of community pharmacy.

Maximum length:
- Text wordcount: 5,000
- Abstract wordcount: 250
- Tables/Images: 12
- References: No límit

Original Brief

This format is used to communicate the preliminary results of research of lesser scope or impact, the results of a research study connected with a project already published in the journal where inclusion of the full original work would contain numerous redundant elements, as well as any other research that does not require a lengthy article to be communicated effectively. These works, in general, should be structured as an original article (IMRAD), including the abstract.

Maximum length:
- Text wordcount: 1,500
- Abstract wordcount: 250
- Tables/Images: 6
- References: 15

Contributions

Feature articles, practical application protocols, information on medicinal products, editorials on subjects of special interest in the field of community pharmacy, or any other articles of interest to the Editorial Committee which do not fit in the other sections.

Maximum length:
To be determined by the journal's Editorial Committee in accordance with the subject matter.

Letters to the editor

Comments related to papers published previously in the journal.

Maximum length:
- Text wordcount: 750
- Abstract wordcount: No
- Tables/Images: 1
- References: 6

Case Reports

Case reports related to the practice of community pharmacy and pharmacological care will be published, such as indications, dispensing and monitoring, or more specific drug interactions, NOM, pharmacovigilance, etc.

Maximum length:
- Text wordcount: 1,000
- Abstract wordcount: No
- Tables/Images: 2
- References: 6

Research projects

Properly structured research protocols (abstract, introduction and justification, applicability of the results, objectives, materials and methods, ethical considerations, time line, and analysis).

Maximum length:
- Text wordcount: 3,500
- Abstract wordcount: 250
- Tables/Images: 8
- References: 30
